Pre adoption Enquiry Form Unpaid volunteer contact at Strawberry is Richard

The rescue will use this to assess if we have a cat in the rescue or comes into the rescue which may be suitable for you. Some cats may not be suitable as they have special requirements and it is not a reflection on what you may be offering. We do not place the cat with the first application unless it is a perfect match for the cat. We have the cats in our homes, not a cattery, so we have them safe and having any vet work done until the perfect match applies. The cats who have already lost one home, may need something specific which we think they will settle best in. We do not rehome to Scotland, as it is too far from any of our main fosterers. Please note that we may opt to do a home check (by a volunteer who lives near you), but we may not need one if you can provide photos of home and vet records of previous pets, but at adoption you will be asked to provide proof of id and address, as we have had people giving incorrect addresses previously. **We don't rehome a cat with children under 6 or planning children SO PLEASE PLEASE DO NOT APPLY IF THIS IS THE CASE in your situation, AS WE DO IT FOR THE SAKE OF THE CATS, some come in as the cats hated children or when babies arrived developed behavioural issues (spraying, pooing on child's things and child's bed or carpet where child has had toilet accidents). Also many cats are not used to babies or children. All cats will scratch and bite depending on what has been done to them or if they are ill or scared. We do not rehome to people allergic to cats, we are looking for a stable unit of residents in the house as all need to be detailed and agree to the indoor only condition and precautions needed to keep a pedigree cat from escaping. We have no transport volunteers to bring cats to adopter and they cannot travel by public transport, so you have to organise with your own friends/taxi yourself at your cost.**

A lifetime pet insurance policy is compulsory to adopt from us or you have to be able to show that you can afford cat illness/care as and when needed, we are finding it can be thousands of pounds to investigate one illness. This is compulsory for indoor cats too. Having a monthly plan with most vets does not cover illness/accidents.

We do not rehome cats to anyone allergic to cats or who wants one which will not moult.

INDOOR MEANS NOT GIVING CAT CHOICE OF GOING OUTDOOR – MANY PEDIGREE CATS GET STOLEN OR LOST OR RUN DOWN – IT DOES NOT MEAN YOU LET IT BE INDOOR IF IT WANTS TO BE OR WHERE YOU ONLY LET IT INSIDE AT NIGHTTIME, that is not indoor only. Indoor only mean no windows or doors to be left open unless cat proofed, INCLUDING IN HOT WEATHER UNLESS CAT IS SHUT SECURELY OUT OF THAT ROOM. LITTER TRAYS ALSO THEN HAVE TO BE INDOOR. DOES ANY OF THIS CONCERN YOU – YES/NO?

We rehome very few outdoor access cats – so do not send us a form unless you have found a cat who can have outdoor access on our website. If after a call from one of our team or approval for a cat - would you please ask your vet to send us the vet records for any pet you previously had at that vet? Just for the last 2 pets if enough if you have had various. Also, if all goes well, can you send us photos of your home please including all main rooms and the room the cat will be settled into?

Is there any other information you would like us to know?

We are unpaid volunteers and some forms do not come through for some reason and we can miss emails (as we are struggling with many experienced helpers poorly), so if you do not hear from us after 2 days please can you email us to chase. Please do not phone as we have no phone volunteers at all except Richard who tries to keep the 07722826935 number just for urgent cats needing us and does not have the time to return up to 30 calls a day wanting to chat about possible adoptions – a form is needed as the first step before someone will call you or reply by email. Calls about adoption to you will be from another volunteer most of the time and not from that phone number or from fosterers of the cats you are looking to adopt, who know the cat best.
