Pre adoption Enquiry Form Volunteer Contact at Strawberry is Ines

The rescue will use this to assess if we have a cat in the rescue or comes into the rescue which may be suitable for you. Some cats may not be suitable as they have special requirements and it is not a reflection on what you may be offering. The cats who have already lost one home, may need something specific which we think they will settle best in. Please note that at homecheck you will be asked to provide proof of ID and address, as we have had people giving incorrect addresses previously. (we generally don't rehome a cat with children under 6.

A lifetime pet insurance policy is compulsory to adopt from us or you have to be able to show that you can afford cat illness/care as and when needed, we are finding it can be thousands of pounds to investigate one illness. This is compulsory for indoor cats too. Having a monthly plan with most vets does not cover illness/accidents.

We do not home cats to anyone allergic to cats or who wants one which will not moult.
