**Foster Enquiry Form**    Contact at Strawberry is Richard

**What do you need in a fosterer?** You must have a spare room where the foster cat can be kept separate from your other cats or your home. This is needed as some may be ill and need space or be scared.

**Does fostering mean I can get a kitten free and you cover costs forever?** No. If you foster and then decide you want to keep a cat, you have to pay adoption fee. We now follow the model that many rescues follow. Fosterers just get a litter tray, starter pack of food and cat litter. The fosterer has to be prepared to fund the food after that starter pack and cat litter. The cat remains property of the rescue and will be rehomed as soon as it is ready and well enough to rehome. Without adoption fees, we cannot exist.

**We do not foster cats to anyone allergic to cats or who wants one which will not moult.**
